

Community Meeting & Panel Discussion for the Fort Bragg Marine Science Institute

DATE: Friday, November 4, 2005
PLACE: Fort Bragg Town Hall
(corner of Main & Laurel Streets)
TIME: 7:00 p.m.

The panel discussion will be facilitated by Susan Lohr of Lohr & Associates. Panelists include: Jan Hodder from the Oregon Institute of Marine Biology; Ron Lawrenz from the Science Museum of Minnesota; Steve Tonsor from the University of Pittsburgh; Art McKee from Flathead Lake Biological Station; Paul Siri, former operations director of Bodega Marine Lab; and Peter Connors from Bodega Marine Lab.

- ✦ **Come hear the panelists' ideas about a "vision" for a Marine Science Institute on the Mill Site in Fort Bragg.**
- ✦ **Meet a panel of experts who have worked together for 10 years helping to establish marine labs and field stations across the nation.**
- ✦ **Find out what has worked in other places.**
- ✦ **Listen to practical suggestions about the scale of the facility and its programs , financing, timeframes, and other considerations.**

This event is sponsored by the City of Fort Bragg as part of the Marine Science Institute Feasibility Study and is funded by the State Community Development Block Grant program
