

We are in a Stage 3 Water Emergency!

Please do your part to help conserve water.

Check All Toilets for Leaks:

To test for a leak:

1. Open the lid on your toilet tank.

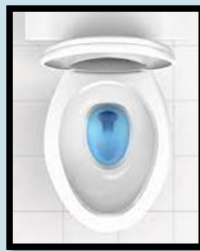

2. Add one dye tablet to your toilet tank.

3. Do **NOT** flush the toilet for 1 to 2 hour

4. Wait 1 to 2 hours without using the toilet at all, then check the water in the toilet bowl. If the color has seeped into the bowl, it means you have a leak.

5. If you discover a leak, please contact Management.

Additional Ways you can help conserve water:

- Keep your showers short
- Shut off faucets while shaving or brushing your teeth
- Inform management if you notice or suspect any water leaks.
- Avoid unnecessary flushing of toilets.
- Be aware of landscaping restrictions. Landscaping is allowed **TUESDAYS ONLY** from 12:00 a.m.—9:00 a.m. and 6:00 p.m.—11:59 p.m.

**We are in this together!
Please help us protect our water supply!**

We are here to help!
