

Questions:

1. Whether companies from Outside USA can apply for this?
(like, from India or Canada)
2. Whether we need to come over there for meetings?
3. Can we perform the tasks (related to RFP) outside USA?
(like, from India or Canada)
4. Can we submit the proposals via email?

Response:

There is no restriction on where the contractor can be located, but, you will have to submit the hard copies of the proposal as indicated in the RFP directions. Failure to do so would disqualify the proposal. A large component of this project is public engagement. If you are able to determine a public engagement strategy without being physically present, you are welcome to propose it and it will be considered in review. There are required presentations that may be done remotely but the time of day is set based on when our public officials meet.
